

TRUPTIMAYEE DASH

Software Engineer | Java Full Stack Developer | Frontend Developer | Spring Boot Developer

+91 9337532443 | truptimayee4166@gmail.com | linkedin.com/in/trupti-dash9 | github.com/TruptiMayeeDash

PROFESSIONAL SUMMARY

Software Engineer with 1+ year of hands-on experience across SiliconTechLab Private Limited and Prath Tech Private Limited (group companies), specializing in frontend development with JavaScript, TypeScript, HTML5, CSS3, and Bootstrap, along with hands-on exposure to Angular, Spring Boot, and microservices-based development on enterprise projects. Proven track record building responsive, scalable web applications for enterprise, corporate, and government platforms, integrating REST APIs, resolving STQC compliance issues, and improving performance and security. Currently pursuing a Spring Boot Bootcamp to strengthen backend and full-stack development skills using Core Java, Spring Boot, Microservices, and PostgreSQL.

SKILLS

Frontend: HTML5, CSS3, JavaScript (Basics), TypeScript, Bootstrap, SCSS, jQuery

Backend: Core Java, Spring Boot, Spring MVC, Spring Data JPA, REST APIs, Microservices (Fundamentals), JDBC

Database: MySQL, PostgreSQL, Oracle, SQL

Tools: Git, GitHub, Postman, VS Code, Eclipse, IntelliJ IDEA, Chrome DevTools

Other: Responsive Web Design, API Integration, UI Optimization, Cross-Browser Compatibility, Agile Development, STQC Compliance

WORK EXPERIENCE

Software Engineer | Prath Tech Private Limited (Group Company)

Jan 2026 – Present

- Develop and maintain responsive, scalable frontend applications using HTML5, CSS3, JavaScript, and Bootstrap, improving user experience across enterprise projects.
- Build reusable, cross-browser-compatible UI components and integrate REST APIs for dynamic data handling.
- Collaborate with UI/UX designers and backend developers using Git and Postman to deliver production-ready solutions within Agile sprints.

Software Engineer Trainee | SiliconTechLab Private Limited (Group Company)

Jun 2025 – Jan 2026

- Developed responsive web applications for enterprise and government projects using Angular, HTML5, CSS3, SCSS, Bootstrap, and JavaScript, with exposure to Spring Boot and REST API integration for enterprise-grade development.
- Built reusable UI components and resolved responsive design and cross-browser compatibility issues across multiple client projects.
- Improved website performance and collaborated within Agile teams using Git for sprint-based delivery.

PROJECTS

SiliconTechLab Pvt Ltd Website — Spring Boot + Angular *(Spring Boot, Angular, TypeScript, REST APIs, HTML5, CSS3, SCSS, Bootstrap)*

- Designed and developed a corporate website using Angular for the frontend, integrated with Spring Boot-based REST APIs for dynamic data handling.
- Built modular, reusable UI components and applied enterprise-grade coding practices to improve scalability and long-term maintainability.
- Collaborated with backend and design teams to deliver a production-ready application within Agile sprints, improving load performance and cross-browser compatibility.

Sukshma Gamma Website (SGI) — Frontend *(HTML5, CSS3, JavaScript, Modern Responsive Design)*

- Developed and deployed a fully responsive frontend website from scratch, translating design mockups into functional, pixel-perfect pages.
- Engineered reusable, user-centric UI components optimized for seamless performance across desktop, tablet, and mobile devices.
- Improved page load speed and accessibility through code optimization and modern responsive design principles.

ICMR – NIPCR Website (nipcr.icmr.gov.in) *(WordPress, HTML5, CSS3, JavaScript, Bootstrap, jQuery)*

- Developed and maintained a government website for the National Institute for Pre-Clinical Research, ensuring compliance with STQC and accessibility standards.
- Customized layouts, navigation, and dynamic content sections to improve usability across devices.
- Resolved UI, responsive design, and cross-browser compatibility issues to maintain consistent performance in production.

PROFESSIONAL TRAINING

Spring Boot Bootcamp — Prath Tech Pvt. Ltd. *(Currently Ongoing)*

Topics: Core Java, Spring Boot, Spring MVC, Spring Data JPA, REST APIs, Microservices, PostgreSQL, Validation, Exception Handling, Swagger/OpenAPI, Maven, Git & GitHub, Layered Architecture, CRUD Applications.

EDUCATION

Master of Computer Applications (MCA), MSCB University

2022 – 2024

Bachelor of Science (Mathematics), Utkal University

2019 – 2022

Java Full Stack Development, J Spiders – BBSR

2025
